

SUMMARY

Results driven and highly skilled Python developer with 4+ years of in developing and implementing innovative web applications. Proficient in leveraging the power of MVT Framework and MYSQL to deliver efficient and scalable solutions for diverse client needs.

EDUCATION

NPR College of Engg and Technology

B.E. Mechanical Engineering
2013 – 2017

PROFESSIONAL EXPERIENCE

Senior Associate Consultant

Infosys | Sept 2024 – Jan 2025

Software Engineer

Prowesstics | Feb 2023 – Aug 2024

Python Developer

Kuya Technologies | May 2022 – Dec 2022

Programmer

Aparajitha Software Services Private Limited | Dec 2020 – May 2022

SKILLS

Programming Languages

Python

Libraries

Pandas ,NumPy

Framework

- Django
- Django REST Framrework
- Flask

Web Technologies

HTML , CSS, jQuery, JavaScript

Database

- MYSQL
- MongoDB
- PostgreSQL

Software Designs Pattern

Model-View-Template

Tools

Pycharm, Visual studio code, JIRA

PROJECTS

Global Solutions

Environment : Python,Django,PostgreSQL,HTML, CSS, jQuery

Role : Functionality Developer

Responsibilities :

- Global Solutions, a Singapore-based recruitment agency, specializes in staffing and candidate screening. We aim to enhance the recruitment process by developing a user-friendly platform that integrates essential features. A standout component is the incorporation of Power BI dashboards, which provide insightful data visualization for informed decision-making.
- Our platform prioritizes user experience with a robust user hierarchy, allowing tailored access for various roles within organizations. We also include company setup and finance management to streamline operational needs. Additionally, our comprehensive leave management and appraisal systems facilitate efficient HR processes.
- To optimize data handling, we employ Pentaho Data Integration for ETL (Extract, Transform, Load) processes, extracting valuable information from HubSpot CRM. This integration enhances our ability to analyze recruitment data effectively. Overall, Global Solutions is dedicated to creating a holistic recruitment solution that empowers businesses to achieve their staffing goals.

Compfie

Environment : Python Flask, Django

Role : Functionality Developer

Responsibilities :
